

# Active Communications & Soft Skills Training Workshop

We groom students and budding professionals to transform themselves into confident, dynamic and successful individuals. The program helps to take command of their careers, develop their professional abilities, become the confident leaders, and achieve their personal goals in life.

## Training Objectives Classroom & Online

Through our powerful and effective modules, we groom an individual to

- Speak and communicate confidently and maintain a neutral accent, clarity in speech and proper intonation.
- Be emotionally strong and tackle challenges of life.
- Build team-spirit, cooperation and negotiation skills.
- Learn corporate and professional etiquettes.
- Enhance Public speaking skills.
- Improve Emotional Intelligence.
- Groom well to maintain a healthy Work Life Balance.
- Boost high level of confidence and handle complex life situations.
- Enhance Leadership Skills.
- Learn effective verbal and written communication techniques.
- Acquire linguistic proficiency required in managing various life situations.
- Speak English with proper voice modulation, intonation & correct pronunciation.
- Apply Basic Neuro Linguistic Programming (NLP) techniques.
